Project Name	Freelancerfinder: Discovering Opporutunities, Unlocking Potential
Maximum Marks	

Project Name: FreelancerFinder

Project Description:
FreelancerFinder is a dynamic platform designed to connect skilled freelancers with clients seeking professional services across various domains such as design, writing, development, marketing, and more. The platform supports user profile creation, job posting and bidding, secure messaging, milestone tracking, rating systems, and payment integration to enable efficient and trustworthy collaboration.
Project Version: v1.0.0
Testing Period: 2026-02-24 to 2026-03-10

Testing Scope:

- **Freelancer and client registration and login**
- **Profile creation and skill tagging**
- **Job posting by clients**
- **Proposal submission and bidding by freelancers**
- **Messaging and file sharing between users**
- **Project acceptance, milestone setup, and status tracking**
- **Secure contract and payment processing**
- **Review and rating after project completion**
- **Admin dashboard for user, project, and dispute management**

Requirements to be Tested:

- **As a freelancer, I want to find relevant jobs, submit proposals, and get hired smoothly.**

• **As a client, I want to post jobs, receive qualified bids, and hire with confidence.**
• **As a user, I want secure login, messaging, milestone tracking, and payment options.**
• **As an admin, I want to manage users, projects, transactions, and resolve disputes effectively.**

Testing Environment:

• **URL: https://freelancerfinder.example.com**
• **Credentials:**
    • **Freelancer: test.freelancer@example.com / freelance123**
    • **Client: test.client@example.com / client123**
    • **Admin: admin@freelancerfinder.com / adminpass**

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Registration	1. Visit website 2. Click "Sign Up" 3. Fill details and submit	User registered and redirected to dashboard	[Pass/Fail]	
TC-002	Post a Job	1. Login as client 2. Click "Post Job" 3. Fill in job info and submit	Job visible to freelancers on job board	[Pass/Fail]	
TC-	Submit	1. Login as freelancer	Proposal visible to	[Pass/Fail]	

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
003	Proposal	2. Search jobs 3. Submit proposal	client		
TC-004	Milestone Creation	1. Client accepts proposal 2. Define and save milestones	Milestones listed and trackable	[Pass/Fail]	
TC-005	Payment Processing	1. Complete milestone 2. Client initiates payment	Payment successfully processed and recorded	[Pass/Fail]	

Related Topics:

- **How can freelancers increase their visibility to clients?**
